

# Tactical Water Microfilter

## User Manual

Filter and Drink, the user can get fresh, clean & healthy water.

**IMPORTANT:** In order to supply a better, healthy, safety water, please read and comply with all the instructions and warnings provided in this manual before using the product.

### Functional Specification

Tactical Water Microfilter is ideal for emergency and outdoor use, allowing the travelers and campers to have instant access to safe and clean drinking water. Through the use of the hollow fiber UF membrane, it could filter 99.9999% of colibacillus, legionella, and 99.99% of protozoan cysts (such as Giardia and Cryptosporidium). The sintered activated carbon filter could remove organic pollutants, odor, improve taste and quality.

### Product Structure

- ① Pump Handle
- ② Bolt
- ③ Retaining Cap
- ④ Piston
- ⑤ O-ring
- ⑥ Metal Sleeve
- ⑦ Filter Cap
- ⑧ Big O-ring
- ⑨ Small O-ring
- ⑩ UF Filter
- ⑪ Carbon Filter
- ⑫ Filter Base
- ⑬ Needle
- ⑭ Back Wash Device
- ⑮ Input Hose
- ⑯ Float
- ⑰ Prefilter
- ⑱ Output Hose
- ⑲ Sinker

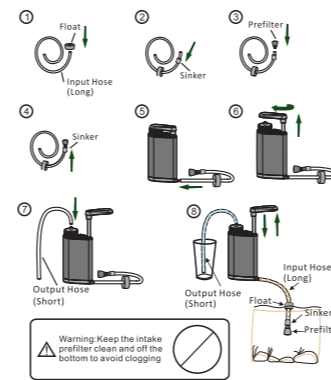

### Technical Data

Model:  
 Application: lake, river, spring, etc.  
 Output: 600ml/min  
 Temperature: 32°F - 113°F  
 Dimension: 72\*38\*148mm  
 Net weight: 245g  
 Capacity: 3000L / 1year (from first use)  
 Material: Aluminium, PCTG (BPA free), Silica Gel, etc.

### Packaging List

Items	Qty.	Items	Qty.
microfilter	1	bag	1
float	1	O-rings	4
pre-filter&Sinker	1	manual	1
input hose	1	back wash device	1
output hose	1	carbon filter	1

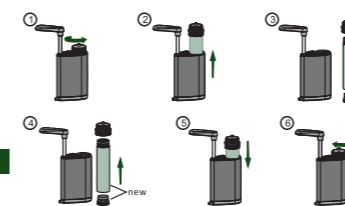

### Installation

### Back Flushing

### Filter Replacement

### Long Term Storage

If the Tactical Water Microfilter is not in use for a long time, please clean the filter and keep dry. As stated below:  
 1. Twist off the filter cap, clean the filter by back wash device and turn it off.  
 2. Gently shake the filter to remove excess water inside the filter.  
 3. Clean the other components.  
 4. Make sure the filter to dry, reassemble the filter and store in a dry shaded environment for best care.
